This 501 (3c) was created with a mission to give back to the local community organizations and a vision to bring awareness to the dedication and commitment of our local community of first responders, help drive further awareness of the importance of organ and tissue donation, as well as help save the lives of countless animals.

As a memorial to Martin Klaiber, who he was as a person, and continuing his legacy as his organ and tissue donations give others a second chance at life, the proceeds from these events have helped each of them to further their missions and obtain their unique goals.
